STUDENTS TO GO ON STUMP.

Campaign addresses will be made in Maryland and Virginia by members of the newly organized Hughes' Republican Club of the Catholic University in the week preceding election.

The club is affiliated with the National Republican College League. It has sixty members, all of whom are pledged to return to their homes and vote for Hughes.

Raymond M. Willinger, of Maryland, is president of the club.

"77"

Humphreys' Seventy-seven
For Grip, Influenza

COLDS

The first stage of a cold is diminution in size of the bloodvessels, producing paleness, chilliness, shivers or rigors, with goose-flesh, a disposition to put on extra clothing, to creep towards the fire, to take stimulants and hot drinks, this is the stage of depression.

The use of "Seventy-seven" at this stage gives the best results, and is almost sure to break up the cold.

"Seventy-seven" contains nothing harmful nor injurious and leaves no bad after effects.

A small vial of pleasant pellets, fits the vest pocket, handy to carry, easy to take. 25c at all Drug Stores in all America.

COAL AT \$15 A TON NEW YORK'S PROSPECT

Prices in Metropolis, Now Between \$8 and \$11, Going Up.

Special to The Washington Herald.

New York, Oct. 29.—Coal for domestic use has reached \$10.75 a ton, and dealers predicted that before the end of the week householders would be tripping over one another to pay from \$12 to \$15.

The highest price paid for coal in New York during the strike of 1902 was \$15, and dealers declared that figures would seem small in comparison with what would be exacted of consumers before Thanksgiving.

Dealers said they were at their wits' end to serve old customers, and were forced to deny a pound of fuel to would-be new customers at any price.

Offices, hotels and large apartment houses have not begun to feel the pinch as householders have, because most of them have contracts. They are paying \$5 a ton for pea coal and from \$3.15 to \$4 for various sizes of buckwheat. But dealers said it would be only a few days before they would be confronted with great difficulty if not absolute inability to fill contracts.

The railroad situation is the crux of the whole matter.

MAJ. PULLMAN PRAISES POLICE AS EFFICIENT

Department Chief Addresses Meeting at Gospel Mission.

"Washington is the only city in America, and perhaps in the world, where, despite the increase in population and in traffic, all police problems are met with a force smaller than was necessary ten years ago," declared Maj. Raymond Pullman, chief of police, at the Gospel Mission last night.

Maj. Pullman's address was an informal talk on the mission's work as a first aid to the police. He said such institutions performed a very important service by preventing crime.

The chief said "crooks lack imagination and take the easy way, because they can't see that it falls in the end."

"Cheese it, the cop!" is a phrase of the past," said Maj. Pullman. "People are fast coming to regard the policeman as their best friend. The man on the beat is doing his best to make that beat safe."

W. L. Clark, secretary of the Washington Railway and Electric Company, had general charge of the meeting. He paid a generous tribute to Maj. Pullman and the police force.

HARVARD MAN FOILS SUN WITH INVENTION

Special to The Washington Herald.

Cambridge, Mass., Oct. 29.—Every morning at 7 o'clock Henry R. Guild, of Boston, a Harvard senior, rolls over in bed. Seven o'clock is too early for a senior to get up, so Mr. Guild presses a button and the shade at the distant end of his chamber rolls down as if by magic.

Mr. Guild has a motor attached to the curtain string, with wires to his bedside. When the sun throws its rays into his bedroom every morning, weather permitting, he presses a button and the curtain drops faster than in a vaudeville theater.

"CAN'T SOCIALIZE LIBERTY."

Samuel Saloman Declares Utopian Theory Unworkable.

"Liberty and Socialism are antagonistic; they cannot be coexistent," declared Samuel Saloman in All Souls' Church last night. "Under the existing order, a man is his own master. He can work where he pleases, dress to his own taste, worship where he will. Press and speech are free. This condition would not prevail under socialism. It would be impossible for a man to have his job, for there would be but one employer, the government, and he would be compelled to work where the government willed or be black-listed."

"In my opinion, man's opportunity for development and self-expression would be precluded under the socialized state."

Heels Secret of Long Life.

Spencer, Ia., Oct. 29.—Mrs. Ellen Callaghan, who celebrated her 100th birthday anniversary on Wednesday, is regarded as a satisfactory proof for one who aspires to longevity the following rules: Arise early, avoid worry, retire early, eat plain food, wear plain clothing, never wear French heels, work diligently and cheerfully.

Steer Fells Lieutenant Governor.

Lancaster, Pa., Oct. 29.—Lieut. Gov. Frank B. McClain was injured today at the Union Stock Yards while attending to business. A passing steer struck and knocked him down, but made no further attack. Mr. McClain's head and one arm were hurt, but his injuries are not serious.

QUIT MEAT WHEN KIDNEYS BOTHER

Take a Glass of Salts Before Breakfast If Your Back Hurts or Bladder Is Troubling You.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness, and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days you'll see the results. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in the urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which every one should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.—Adv.

CROWD TO FILL HALL AT REPUBLICAN RALLY

Roosevelt Unable to Attend Hughes Club Meeting Tonight.

Theodore Roosevelt will be unable to attend the Republican rally in Convention Hall tonight, according to a message received yesterday by Secretary E. B. Eynon, Jr., of the Hughes Club, which has arranged for the meeting.

It is certain, however, that a capacity crowd will be present to hear the addresses in behalf of Charles E. Hughes by Henry D. Esterbrook, of New York, and John G. Capers, of Washington.

The Hughes Club has issued 5,000 tickets and secured to the home of Harry Wardman, where he will be the guest of honor at a dinner to be attended by eight or ten Washingtonians. From the Wardman residence the party will proceed to Convention Hall.

Mr. Capers is a leading Washington lawyer. He formerly was commissioner of internal revenue.

President William R. Harr, of the Hughes Club, will preside at the rally.

HUGHES EXPLAINS HOW HE WOULD RULE NATION

Makes Declaration of Principles in New York.

CONTINUED FROM PAGE ONE.

Department of the Navy—he chose men whom he knew to be wholly unopposed to their duties. Administrative obligation was subordinated to political exigency. I can assure the country that any administration under my direction will stand upon sound administrative ground with the ablest Cabinet the country can supply.

"Across the road we travel this next four years, even though we start right and move with prudence and courage, serious hazards are thrown like breaks in a roadway made by a torrential rain. The all rise out of the way, the road which has overwhelmed Europe. The first has to do with our foreign relations. It is the President's duty to safeguard the interests of our nation and to preserve the friendship of every other nation.

Determined to Maintain Peace.

"No man is more determined than I to maintain the peace which the United States, Spain, Sweden, Norway, and Germany are enjoying. But I should seek to maintain that peace by a firm and courteous insistence on the rights of our citizens at home and abroad.

"I am not a Mexican, but I am an American, and I am entitled to the protection of his own government in his lawful business. For one, I shall never consent to a policy which leaves Americans helpless against the lawlessness of any country in which they have a right to do business.

"There confronts labor in the next four years a condition more serious than any that American laboring men have been called upon to face. When this war began over a million American workmen were seeking vainly for employment. When the war ended and the developed energies of a new Europe are thrown into commercial production, our nation will be unable to absorb them.

"One of two things must happen: millions of men will be seeking work in vain or else there must be thought out in advance the problem of commercial organization as France and England and Germany are seeking to do.

"I pledge myself and those who stand with me to deal with the needs of laboring men the country over, whatever their trade or organization, upon the principle of giving the largest protection possible to every American workman and the largest participation possible in the prosperity of our industries with special favors to none.

"Finally it is to be remembered that every European government puts itself behind its industries, organizing them, encouraging them and suggesting economies. When the commercial struggle begins anew, the industries of every European country will go into the world markets backed by effective co-operation and intelligent oversight of their government.

Would Treat Business Fairly.

"Our national policy requires that government maintain a strict supervision of business organization. This can be done effectively and yet leave the government free to encourage legitimate and wholesome business enterprise. I stand for such supervision and control of business, but I demand also that business, great and small (and especially the small business) be treated fairly and justly. Only under such conditions can business pay living wages or compete with foreign manufacturers.

"In this respect again the present administration holds a policy entirely opposite. It has viewed business enterprise with suspicion and has made the government a brake to stop the wheels of legitimate industrial progress. It has treated the business men of this country as though they were suspicious characters. It has assumed that capital and labor are natural enemies. In four years it has put this country further on the road to class war than has been accomplished in a generation before. The men who stand with me believe in the honesty of the American working men, they believe no less in the honesty of the American business man, and they believe that the common good is to be found, not in class war, but in mutual justice and fair dealing, not between capital and labor in the abstract but as between men and men.

All Americans in One Bow.

"You know the road we have traveled this last four years. Mr. Bryan and Mr. Daniels are its monuments of executive efficiency. Our murdered and forgotten citizens in Mexico reveal a conception of American citizenship plain enough to see but a new one for

AMERICAN PATRIOTISM TO ADOPT: THE MOVEMENT OF CLASS BITTERNESS

raised by this administration throws a sinister shadow across our political horizon; the unjust accusation against business men has left a bitter taste in our national life. If you prefer this path it is plainly marked. And at the end of it is class war."

At this point Mr. Hughes makes his declaration of principles and concludes by saying:

"We Americans are in one bowl. You cannot strike a blow at one group without injury to all. Common justice and fair play will settle our difficulties. If suspicion and bitterness are let alone, these are the principles by which I propose to be guided."

STRAYING CHICKS LEAD TO INJURY TO WOMAN

Special to The Washington Herald.

Philadelphia, Oct. 29.—Chickens which had a habit of straying from their own roost and perching on a wire barrier around the garden in an adjoining back yard got Mrs. William Knolles into a quarrel which resulted in her being severely injured.

Police of the Tacony station declined to reveal the circumstances of alleged fight between Mrs. Knolles and Mr. Edwards, her neighbor. Mr. Edwards, going into his back yard, was surprised to find his neighbor's chickens. He tried to chase them, but they just cackled. The cackling attracted Mr. Knolles.

Mr. Edwards uttered disparaging remarks about the chickens which Mrs. Knolles resented, and she told him so. Edwards called a police patrol and had Mrs. Knolles taken to the police station, where he lodged a charge of assault against her. Later she was sent to a hospital. In addition to losing two teeth, Mrs. Knolles suffered an injury to her spine and bruises on the face and head.

Indians Adopt White Girl.

Kalispell, Mont., Oct. 29.—At the Kalispell round-up recently, before a large crowd, Miss Florence Rogers, of Seattle, was adopted into the Blackfoot Tribe of Indians, Curly Bear, a noted Blackfoot chief, performing the ceremony. Miss Rogers is a graduate of the Lewis and Clark High School, of Neatoka.

Negro Killed on B. & O.

Elkton, Md., Oct. 29.—An unidentified negro about 20 years old was killed by a freight train on the Baltimore and Ohio Railroad at Singery this morning.

CHILD'S TONGUE BECOMES COATED IF CONSTIPATED

When Cross, Feverish and Sick Give "California Syrup of Figs."

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is, they become tightly clogged with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea.

Mother: See if tongue is coated then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile, and undigested food passes out of the system and you have a well, playful child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeiters sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with contempt.—Adv.

BRONZE AWNING RODS NERVY "WORKERS" LOOT

Special to The Washington Herald.

New York, Oct. 29.—It has just become known that one morning last week a young man went to the janitor of the Metropolitan Building and asked for help in removing the awnings. When no help was given him, he proceeded to take them down unaided.

The window of the office of John R. Hegeman, president of the Metropolitan Life Insurance Company, and several others were despoiled of their bronze awning rods, while the awnings were left flapping.

About \$50 worth of bronze was taken by the man with the iron nerve.

CHINESE ARMY A MENACE.

Soldiers Love Their Job and If They Are Not Paid They Loot.

Peking, China, Oct. 29.—China's toughest problem now is how to disband the army raised during the revolution. The government, hard pressed for money, will have to raise at least \$300,000 to pay off the 800,000 men under arms; and unpaid soldiers are always a menace in China.

Coolies regard military service as a very desirable occupation. Once enlisted it is difficult to persuade them to retire. They grow and become extremely troublesome if an attempt be made to disband them without liberal payment. The commanding officers are frequently as necessary as the soldiers. When the government fails to give its soldiers what they regard as adequate pay, the troops frequently become bandits and loot.

Each province has its own military governor and a distinct military organization, presumably under control of the Peking authorities, but actually independent in most cases. Consequently the Peking government is forced to deal very diplomatically with the military organizations in the provinces, particularly in the remote provinces.
